

# Safely Disinfect Animal Pathogens

## with Chlorinated Disinfecting Tablets

Chlorinated Disinfecting Tablets are an EPA registered broad spectrum disinfectant

One tablet added to a quart of water meets and exceeds the required ppm effective against a broad range of critical pathogens including SARS-CoV-2, **no rinse required.**

- Kills 99.9% of viruses and bacteria
- Neutral pH
- Fast Dissolving, Easy, Simple and Convenient
- Apply solution with a non-electrostatic spray device, cloth, wipe, sponge, brush, or mop. No rinse required, allow to air dry
- Single dose tablet delivers accurate dose every time
- Prepare daily when using in open containers such as mop buckets
- Provides effective strength that will not dull high gloss floor finishes
- Eliminate odors while disinfecting
- Use on hard non-porous surfaces
- Soft Surface Sanitizing

Part # = GK-CDT6.55-2pkg
